

This petition shows a major problem with this country: sit on your butt long enough and cry about what you want that others have worked for and pretty soon, some bleeding heart will give it to you.

I worked for, and EARNED, my Extra one month BEFORE the 4/15/2000 dumbing down 5 wpm change. If I did it, anyone could have. It only takes the guts to try.

Also, simply having a license shows no competence, nor even use. How does anyone PROVE their competence simply by holding a license?

DENY the petition please!
